

IRISH GIVE REPLY TO BRITISH HEADS

Sinn Feiners Declare Door to
Peace is Not Slammed,
Issue Army Order.

LONDON, Aug. 25.—Sinn Fein's reply to the British peace terms was delivered at Downing at 1 o'clock this afternoon. The Irish envoys, who handed over the document were Art O'Brien, A. C. Berton and Joseph McGrath.

Before it was made public, members of the Dail Eireann indicated that it had not "slammed the door to peace" but that it was not complete acceptance of the British terms.

It is understood that the answer states that Dail Eireann gave full endorsement to the decision of the Irish republican cabinet to refuse the English terms.

The document was said to interrogate Premier Lloyd George whether he is prepared to negotiate further with Ireland upon the basis of the latter country being self-governing through the consent of the government.

A general order calling upon all Sinn Fein soldiers to hold themselves in readiness for active service in the field at any moment, had been read to all ranks and units of the Irish republican army today in Dublin.

"No such necessity may arise," said the general order. "But it is the duty of the defenders of the Irish republic not to relax their vigilance and leave nothing to chance. This situation is thoroughly appreciated by the fighting men of Ireland. Whatever contingency arises

SLICK ATTACKS 'PHONE RATE PLEA BEFORE KIWANISANS

CITY ATTY. T. W. Slick in a short talk at the Kiwanis club, Thursday noon, gave the club his version of the increase asked by the Indiana Bell Telephone Co. Slick stated that if the question is brought up before the courts before the outgoing of the present administration, the city will fight it.

The attorney also explained "the reason" for the telephone company's deficit in funds, stating that the American Telephone and Telegraph Co., in reality owns the Indiana Bell system, and that their dividends have risen in the past few months from eight to nine and 10 per cent.

The following example was given by Atty. Slick: A telephone call from
